

## Press release

### **Inelta and PIL intensify sales activities and further expand sales force**

Inelta Sensorsysteme and PIL Sensoren expand their personnel capacities in sales by the new employees Alexander Hauf and Hans-Christian Pilder. Hauf, who had previously worked for many years in sales and export of electronics and sensor products, is now responsible as Export & Sales Manager for the support of distributors in Europe and worldwide.

The two associated companies were able to gain Hans-Christian Pilder, a graduate industrial engineer, as a new contact for customers from the Southern Germany sales region. Pilder has extensive expertise in the sensor technology sector as well as in technical sales. Customers can contact Pilder at 0049 - 089 - 45 22 45 - 265 or by e-mail at [hans-christian.pilder@inelta.de](mailto:hans-christian.pilder@inelta.de) (Inelta Sensorsysteme) or [hpilder@pil.de](mailto:hpilder@pil.de) (PIL Sensors).

### **About Inelta Sensorsysteme**

Based in Taufkirchen near Munich, Inelta Sensorsysteme has been developing, producing and marketing standard and customized sensor solutions for industrial applications for more than 25 years. Together with PIL Sensoren (Erlensee near Frankfurt/Main), a pioneer in ultrasonic sensor technology, and VYPRO (Trenčín, Slovakia), the company offers a wide range of products for displacement and position measurement as well as for force, pressure and inclination measurement. The product range includes force sensors, signal conditioner, pressure switches, capacitive sensors and ultrasonic sensors. Services in the field of cable and connector assembly complete the portfolio.

The group of companies supplies in particular customers from the industrial automation, mechanical engineering, hydraulics, medical technology and aerospace sectors. Industry- and customer-specific sensor solutions form a key focus, which is continuously expanded with interdisciplinary know-how.
