Dear Business Partners,

The worldwide spread of the coronavirus (Covid-19) leads to considerable restrictions in public life and in the economy. The official instructions of the German Federal Government and the state authorities partly influence our delivery situation.

Some delays in delivery and interruptions in logistics (suppliers, transport, customs etc.) will lead to bottlenecks in our incoming goods department.

To counteract this, we are currently making every effort to maintain the ability to deliver for our customers and projects.

We kindly ask you to check known standard delivery times in advance and in good time, as we will not be able to meet them for our entire portfolio in the short and medium term under these circumstances.

Precautions have already been taken to maintain our production and to protect our employees.

In accordance with the current situation, you will be informed of relevant changes in good time.

We assure you that we will do everything in our power to maintain our business operations and ensure continuous availability.

Yours sincerely,

Dr. Jochen Heimann
General manager/ CEO
